RS-TRACKDAY

Serious trackday suspension, high value for money

Pressurised mono-tube > Perfect damping
 Camberplate > Enables trackday wheel alignment
 40mm inverted system, 16mm toppin > Strong and reliable
 Height adjustment > Perfect ride height and corner weight
 Rose joints > Free rotating damper

RSA

Single knob damping adjustment for compression and rebound

40 clicks damping > Always the perfect damping setting
 Wide damping range > For road tires and semi-slicks
 Build-in thermostat > Constant damping, also on hot days

1K2

Competition grade, lightweight, oversized dampers

7075 Aircraft grade aluminum > Strong and durable
 46mm piston > Huge oil displacement, maximum damping
 Oversized > Better cooling and longer oil lifetime

1K2 BLACK TITAN

Piston rods and guidance rods with extreme low friction and hardness

Low friction > Better traction and grip
 Inert coating > Impossible to corrode
 Rock-hard > Almost unlimited lifetime

Usage of the car

Lancia

Lotus
