Sitecare

## XL TUBE BLACK TITAN

Black titan coating on inner tube and piston shaft. Black titan is rock hard and super low friction. Floating bearings for maximum installation stiffness and low friction

## ADJUSTABLE

Independent adjustable low- and high speed compression (bump). Total low speed range compression. Each adjustment is standalone and doesn't influence each other

## CAMBERPLATE

Camberplate for racing and street applications. High quality top plate inside INOX + INOX bolts.

## SPRINGADJUSTER

Spring adjuster for all cars. One spring with 4 spring rates. Quick change from dry to rain conditions. Great set-up tool
